**Mobile Botanical Gardens** consists of 106 acres in the heart of Springhill in Mobile, AL that includes Longleaf conservation forest, nature trails, design gardens, and world class camellia and azalea collections.

## The mission of the Mobile Botanical Gardens

The Gardens serve as a living classroom for residents and visitors alike. By providing a sense of place, we endeavor to instill passion for nature, and promote interest in gardening, conservation, and outdoor activities.

**Why does our membership year begin in July?** The summer months are our leanest, financially, so our summer membership drive allows us to bridge the funding gap between Spring and Fall.
